Care and Support Services

We have a team of local, qualified and experienced care staff who are able to help you with a range of care service to enable to you maintain your independence at home.

Personal services and assistance with activities of daily living

You may like some assistance with showering, grooming, dressing, or toileting. We can help you get out of bed and ready for the day ahead, or even warm and serve you lunch to ensure that you are eating regular, nutritious meals at home.

Nutrition, hydration, meal preparation and diet

We can help you with preparing, heating or serving meals or even getting you the right cutlery and crockery to help you manage your own meals independently. Let us know if you would like us to arrange a consultation with one of our dietitians, occupational therapists, or speech pathologists.

Keeping your skin healthy

We can supply you with bandages and dressings to tend to any existing wounds, and apply lotions as needed to keep your skin moisturised and healthy.

Continence management

We can assess any issues you may have with continence, and supply appropriate aids such as disposable pads, commode chairs, bedpans, or urinals at competitive rates.

Mobility and movement

We can arrange for you to have crutches, walkers, frames, sticks and wheelchairs as needed, as well as equipment installed in your home at a fair price. We aim to make it easier for you to move around and stay as active and independent as possible.

Cleaning

We can offer you any dusting, vacuuming and other household cleaning services that you are no longer able to do safely on your own, or help you to re-gain these skills.

Gardening and home maintenance

Talk to us about any gardening or home maintenance services that you need to keep you safe and secure in your home.

Home modifications

We can assist you to modify your home to make living there easier for you to manage independently.

Transport

We can offer you transport and personal assistance to shop, visit your doctor, and attend social activities.

Leisure, interests and activities

We can help you to take part in social and community activities to promote your lifestyle, interests and wellbeing.

Helping you to be happy at home and remain connected to the community is what our care, support and clinical services aim to achieve.

Clinical Services

Our highly-trained clinical team can assist with all your nursing and allied health services to promote your health and wellness.

Simple and complex clinical care

The nursing services that they typically perform in the home can include helping you to manage your health conditions, preventative interventions, as well as ongoing management of your care.

They are available to provide you with high quality care when required to ensure that your clinical needs are met.

Allied health

We offer occupational therapy and physiotherapy services and referrals to other specialty services where needed or requested by you as part of your care plan.

Other clinical services and referrals

You may need assistance with other clinical services such as hearing, vision, or podiatry services, and we can either assist you with this directly or help you to find a service that can help.

Weekly services for all clients

Care coordination

The care coordination service we offer covers your care planning, set up costs, reviews, and coordination of your package services and funds.

We help our clients manage a services plan based on their choice and an individualised budget. We re-assess your goals and needs as well as review your care plan regularly to maximise the benefits that you get from your package.

Administration

All packages carry a standard service charge to cover the cost of meeting Government quality and accountability requirements, insurance, improving our services, developing statements, and scheduling your visits.

Plan your services

The normal rates for our care, support and clinical services are offered 7.00am-7.00pm Monday to Friday with extra costs for on weekends and public holidays.

Visits over 30 minutes are charged by the hour, while shorter visits have a flat rate.

Design your own services

We have a team of local, qualified and experienced care staff who are able to help you with a range of care service to enable to you maintain your independence at home.

We would like to understand how best we can work together to keep you connected to the people and activities that are important to you. You might even have your own creative idea for a service or activity that could really help you that we would be happy to offer.

Our only limitation is excluded items, such as food, accommodation, home modifications not related to your care needs, travel and accommodation for holidays, club memberships, gambling, or illegal activities.

Sometimes we may not be able to assist for occupational health and safety issues. This would exclude services such as chopping wood for your fireplace in winter or using unlabeled household chemicals for cleaning.

Our team

Care and support team

Standard care and support services are performed by Community Support Workers.

Clinical team

Clinical services are performed by:

- enrolled nurses

Complex clinical care services are performed by:

- registered nurses.
- allied health practitioners, e.g. occupational therapists and physiotherapists.

Our Community Coordinator helps you choose the right person to perform the services you want in your care plan.
